

INTRODUCING

Encrypto™

New-Media art

font for a new World Order

It displays four different alphabets in one font that alternate as you type.

Not the sort of font that

once you have seen a few letters you know what the rest is going to look like. It removes these expectations.

Encrypto font has the official Unicode symbol 0243 for Bitcoin cryptocurrency = ₿

Encrypto Regular PreType: PS1 & TTF flavoured. Circa 2015
